

Complaint - Revision - Post Market - Feedback Reporting

General Feedback about SI-BONE Product

This is only for non complaint information. Examples: surgeon suggestions, meeting discussions, etc. For complaints, go back and select "Problem..."

Contact Info

Use this to record your attempts to contact and gather information from the surgeon.

Complaint Overview

Enter information about surgery that resulted in a problem with any SI-BONE implant, instrument or accessory (e.g., drill bit, pin).

Product Complaint or Adverse Event?

Decide what type of report you are submitting.

Product Complaint Without Adverse Event

Use this form to report an SI-BONE product problem that was NOT associated with a patient adverse event.

Select Adverse Event Type

Symptomatic Implant Malposition Form

Use this form if patient experienced symptomatic implant malposition resulting in nerve irritation.

Pain Did Not Improve or Recurred

Use this form if pain did not improve OR pain improved but then recurred

Surgical Wound Problem

Use this form if patient developed postoperative surgical wound problem (infection, dehiscence).

Other Problem

Potential Warranty Case

Please help evaluate whether this case could qualify for SI-BONE's warranty policy.

Use this form to submit information about a complaint related to an SI-BONE product to Quality Affairs. Contact QA@si-bone.com if you have any questions.

Contact #1: How did you attempt to contact the surgeon?

Email

Was this attempt successful?

Yes

Date you first heard of problem with SI-BONE product.

Thursday, October 20, 2022

Which device(s) was/were affected?

Revision implant/instrument

Part number(s), if available

The patient had a surgery 2 years ago (09.09.2020) performed by Dr. Donat. Initially, the patient had 3 implants:

1: 7x50mm LOT:2659051

2.: 7x40mm LOT:2717661

3.:7x45mm LOT:2728311

Lot number(s), if available

The patient had a surgery 2 years ago (09.09.2020) performed by Dr. Donat. Initially, the patient had 3 implants:

1: 7x50mm LOT:2659051

2.: 7x40mm LOT:2717661

3.:7x45mm LOT:2728311

Use this form to submit information about a complaint related to an SI-BONE product to Quality Affairs. Contact QA@si-bone.com if you have any questions.

What is the nature of the problem you are reporting?

Product complaint that caused or may have caused an adverse event or revision procedure

Examples include:

- Damaged instrument
- Broken pin
- Bent pin
- Pin advancement but no patient injury
- Problem with packaging

If a damaged part injured a patient, go back and click on "Product complaint that caused or may have caused an adverse event."

Select from the choices below. Your choice guides which section to complete.

If the first 3 do not apply, select "Other".

If a product problem occurred that did NOT cause a patient problem, go back and complete the

"Product Complaint Without Adverse Event" section.

What problem did patient have?

Pain did not improve or recurred

(Information should be from SI-BONE staff who attended initial surgery)

The surgeon completed all steps in the IFU, including:

- Patient setup (table, spine neutral position, prone or supine position)
- Inspection of instruments and implants prior to use
- Proper views (lateral, inlet and outlet) obtained during use of instruments and placement of implants that clearly showed recommended anatomic landmarks
- Appropriate implant starting position
- (If performed) proper use of neuromonitoring guide pin and equipment
- Use of length gauge for implant length selection
- Were standard wound closure techniques used?

For above question, be specific and include all steps of the revision surgery and any complications.

- Was the implant adjusted, removed or added?
- Were the explant holes filled with bone graft?
- Were osteotomes and the/or the removal adapter used?
- Was any non-iFuse hardware installed?

Best description of time course of pain recurrence:

Pain never got better

Compared to preoperative level, pain now is

Same

CT imaging to evaluate pain recurrence shows:

CT was done, doctor refuses to comment on results

Is doctor willing to share CT images with SI-BONE?

CT done, doctor NOT willing to share

Imaging type used during initial surgery

C-arm/fluoro only

Was initial surgery attended by SI-BONE staff member?

Yes

Name of SI-BONE staff member attending initial surgery

Mario Ringelmann

(Information should be from SI-BONE staff who attended initial surgery)

The surgeon completed all steps in the IFU, including:

- Patient setup (table, spine neutral position, prone or supine position)
- Inspection of instruments and implants prior to use
- Proper views (lateral, inlet and outlet) obtained during use of instruments and placement of implants that clearly showed recommended anatomic landmarks
- Appropriate implant starting position
- (If performed) proper use of neuromonitoring guide pin and equipment
- Use of length gauge for implant length selection
- Were standard wound closure techniques used?

See summary of IFU steps. Did surgeon complete all steps as shown above?

Yes, all steps were completed accurately

Were any additional causes of low back / pelvic pain evident or discovered during workup?

No other cause determined or suspected

Were any SI-BONE implants removed or adjusted as a result of this problem?

Yes, one or more implants were adjusted or removed

Describe revision procedure.

Dr. Donat used the iFuse Removal toolkit and did not fill up the explant hole. There were no complications during the revision. The surgery lasted 1 hour, and the implants have been removed well.

Use this section ONLY if the patient problem is **NOT**:

- Implant malposition causing nerve irritation
- Pain did not improve or recurred
- Surgical wound problem

Did patient's situation meet all of the following?

Did patient undergo a revision procedure that met all of the following:

1. *The initial procedure involved placement of 3 SI-BONE implants on the affected side*
2. *The revision procedure:*
 - *Was completed within 1 year of the initial procedure*
 - *Was completed at the same hospital or within the same hospital system as the initial procedure*
 - *Was completed during a separate hospitalization from the initial procedure*
3. *The patient followed all physician instructions after the initial procedure*

Did patient's situation meet warranty criteria shown above?

Yes, all of the above apply
